TABLE OF CONTENTS

FOREWORD.....15

INTRODUCTION TO SECURITY16

Risk management16

 Reduce the risk.....17

 Implement protection measures against the identified threats.....17

 Pass off part or all of the risk to others.....17

 Isolate the risks.....18

 Offset the risks.....18

 Avoid the risks18

 Retain the risks.....19

 Spread the risks.....19

Cost of Protection.....20

Optimum Level of Protection.....21

 Calculating optimum level of protection.....21

Security risk assessment process.....23

 Establishment of the context24

 Threat identification24

 Threat exposure26

 Likelihood of a threat occurring26

 Consequences (or losses) resulting a threat occurring.....28

 Overall level of risk28

Essential elements of security protection31

 Deterrence32

 Detection.....32

 Delay33

 Verification.....33

 Response33

 The elements of security36

SECURITY MANAGEMENT37

Objectives.....37

 Safety to staff and patients.....37

 Protection of assets of the organization and of its staff38

 Legislative compliance and contractual obligations.....39

Development of a security philosophy39

 Strategy41

 Structure.....41

 Staff42

Procedures and Human Resources.....42

 Standard operating security procedures43

 Emergency procedures43

 Contingency plans.....44

 Executive protection45

 Staff security awareness programs.....45

GUARDS AND PATROLS47

 Static guards47

 Patrols47

 Control room management48

 Lock and unlock service.....48

 Alarm response48

 Cash carrying48
